Who we are

All Creatures Great
And Small

Equitrans was established in 2002 in United Arab Emirates, when we saw the need for a specialised air transport and charter company to manage the growing demand for international horse transport, animal relocation and other high value cargo.

We began a bespoke service for the international transport of horses by air and road with horse care, welfare and safety at its core. The service offers a stable to stable solution involving quarantine, health and veterinary, professional animal attendants and specialised equine logistics. We have grown rapidly over the last 20 years, transporting over 40,000 horses and numerous live animals by air and road, to and from over 100 countries. We are also honoured to be transporters for some of the most prestigious international events, races, competitions and polo tournaments.

We have begun to diversify into air charters and part charters for cargo and passengers for relief and aid movements and continue to grow our services to cover all valuable cargo by air and road.

With our global network and expertise in the horse industry we have developed a very close alliance with the two UAE carriers, Etihad and Emirates, aiding their growth in equine products internationally.

Vision

Our vision is to create an international brand offering a simple and safe, global transport solutions for horses, live animals and high value cargo. Equitrans powers this service with our people's passion, using the newest technology and always tailored to suit our client's budget and needs.

TEAM

At Equitrans our purpose links us to something bigger than ourselves...

“We employ extraordinary people who do meaningful work that have a tangible impact on the safety and welfare of horses all over the world.

We aspire to make extraordinary things possible for the equestrian industry, your horses, and you.

We have been doing this for two decades and are just as passionate about it today as we were when we founded the company in 2002”.
