*“Your Horse’s Safety is our number One priority”*

## ABOUT US

EquiSky Logistics is based in Ajman, United Arab Emirates since 2006, dedicated to providing safe and reliable horse transportation at competitive prices. We arrange the worldwide transport for horses and other live stocks to/from various destination including North/South and Central America, Europe/UK, Middle East, Asia and Africa using premier airline services and first-class IATA recognized horse containers. We are transporting all type of horses such as Thoroughbreds, Arabians, Show Jumping, Flat Racing, Endurance, Polo Ponies, Quarter, Shetlands, Falabella and provides transport for both permanent and temporary relocations.

Our aim is to provide you with an effective, low-cost stable to stable service without compromising the safety and well-being of your valuable horses. Our experienced and dedicated flying grooms have many years experience in handling horses and have accumulated thousands of frequent flyer miles in attending to the safe transportation of horses around the world whether for competition, racing, breeding or re-location including personal pet horses. All our support staff have had extensive experience in the industry and our specialised flight coordinators have also had experience as flying grooms, vet nursing and equine administration.

We take particular care to make sure horse owners are well informed throughout the shipping process and make staff members responsible for your shipment readily available.

You can rest assured that your horses will receive the best care while in the hands of EquiSky Logistics.

# INTERNATIONAL AIRFREIGHT

We have a good database of most of the leading scheduled air freighters to get an easy booking. Apart from the scheduled flights we can also arrange charter flights up to 75 horses per flight.

Horses travel in IATA recognized air stall. The Air stalls vary slightly depending on the make and model of the aircraft however their dimensions are generally fixed at:

- Length 294cm
- Width 234cm
- Height 232cm

Generally, three horses are loaded into each Air Stall. However, two horses per stall can be arranged based on your budget and preference, and the space will vary accordingly.

3 horses per Air Stall – Described as horse travelling in a SINGLE stall – width approx. 75cm

2 horses per Air Stall – Described as horse travelling in a WIDE stall – width approx. 115 cm

Once inside the aircraft, the horses are in an air-conditioned environment. The flying groom monitors the well-being of your horse and provides feed and water as the animal requires. We do all we possibly can to ensure stress free air travel, so your horse will arrive at its destination in top condition.

There are many things to consider when horses are transported from one country to another, EquiSky services include: -

- All government requirements for Export/Import
- Application for import, export and transit permits
- All pre-export/post-import quarantine requirements
- All veterinary works including blood test and vaccinations
- Road transportation by highest standard of trucks
- Transfers of registration and stud book if required
- Government veterinary inspections
- Airfreight, Airport handling and customs clearance
- Cross border documentations

- Specially designed partitions that can be altered to the many different types of horses
- Safe and easily accessible front-and-back loading ramps with lowered entrance
- Monitoring of the horses through cameras in the cabin
- Fresh water and hay supply onboard
- Airconditioning/ventilation systems for more comfort
- Rubber and springy floors
- Drivers with years of experience in horse transportation

## OUR COMMITMENT

- Your Horse's Safety is Our Number One Priority
- We only work with reputable carriers with suitable aircraft
- Using the most direct, safest acceptable routings
- Securing the best possible ground handling at arrival, departure and transit airports
- Using only the highest quality air stalls
- Working with the aircraft crew to ensure optimal air circulation throughout the flight
- Using the best flying grooms in the world who will ensure your horse is accompanied throughout the journey

# EQUINE SEMEN TRANSPORT

Today's breeding technology provides horse owners more options than were available in the past. Artificial insemination and semen preservation techniques make it possible to ship stallion's semen to mares nearly anywhere in the country. But success with transported semen will depend on the careful reproductive management of both stallion and mare

We are professionally exporting/importing Horse's Fresh/ Frozen semen worldwide with ministry and IATA recognized semen container. We will give utmost care to reach the semen to the client according to their schedule and plan.

## PET TRAVEL SERVICES

We will assist you with all the necessary details and logistics of your pet's move. Our goal is a hassle-free, worry-free and safe journey for your pet. Relocating dogs, cats, birds and other small live animals is a more technical process than you realize. We specialize in arranging animal freight/ animal cargo and provide for your pet' travel safety and comfort from door to door or airport to airport. We will arrange all the necessary documentation to be completed for the entire animal shipment process from start to finish.

## INSURANCE

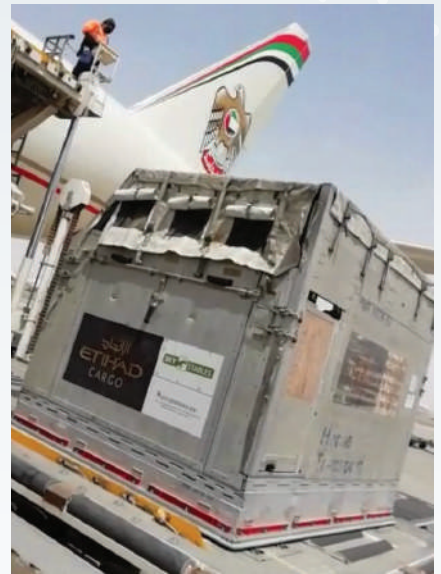

---

Whether a horse is purchased for personal or business reasons, ownership represents a significant investment of time, money and resources. While no one likes to think about the potential for tragedy, horses seem to be prone to illness, accidents and injury. Should some peril befall your horse, nothing may ease the emotional burden, but wise planning can help reduce the economic impacts.

Many reputable insurance companies offer policies to help protect owners from financial loss should a horse fall ill, become incapacitated or die. We will arrange travel insurance for your valuable horses up on request.

Please note that we require sufficient time for shipping horses in order to coordinate Airfreight, Blood tests, vaccinations and quarantine procedures, so please call us immediately if you wish to move your valuable horses anywhere in the world.

For inquiries please do not hesitate to contact us:
